Child Labor

They came from U Land
with straight ICE & Snow
It was cold & fast NOT HOT &
SLOW

So the hammer of the
god would Drive the ships to
New Lands.

- We would fight the
Lorde & King & Cry Thru tantrums
& when we got here it
wasnt what we thought

We were treated badly by a fool
Kids couldn't go to school.

We worked in the factory
no education no nothing.
Tragedy.

- They aint even pay us
enough to make end meet

→ I work 15 hours a Day

we are children under 18
depending on the country
Long hours of work
we are tired Don't you think?

Abusive Treatment
by the employer
- Don't have access
- Don't have or poor access
- Don't have to education

These are the things
we go through in child
labour free us

LET US BE

LET US GET

A EDUCATION

- Don't have child labour
- Don't have child labour
